SafePath® FAMILY

INDUSTRY-LEADING **LOCATION** SERVICES & **PARENTAL CONTROLS** UNDER ONE APP

Available for all kinds of devices
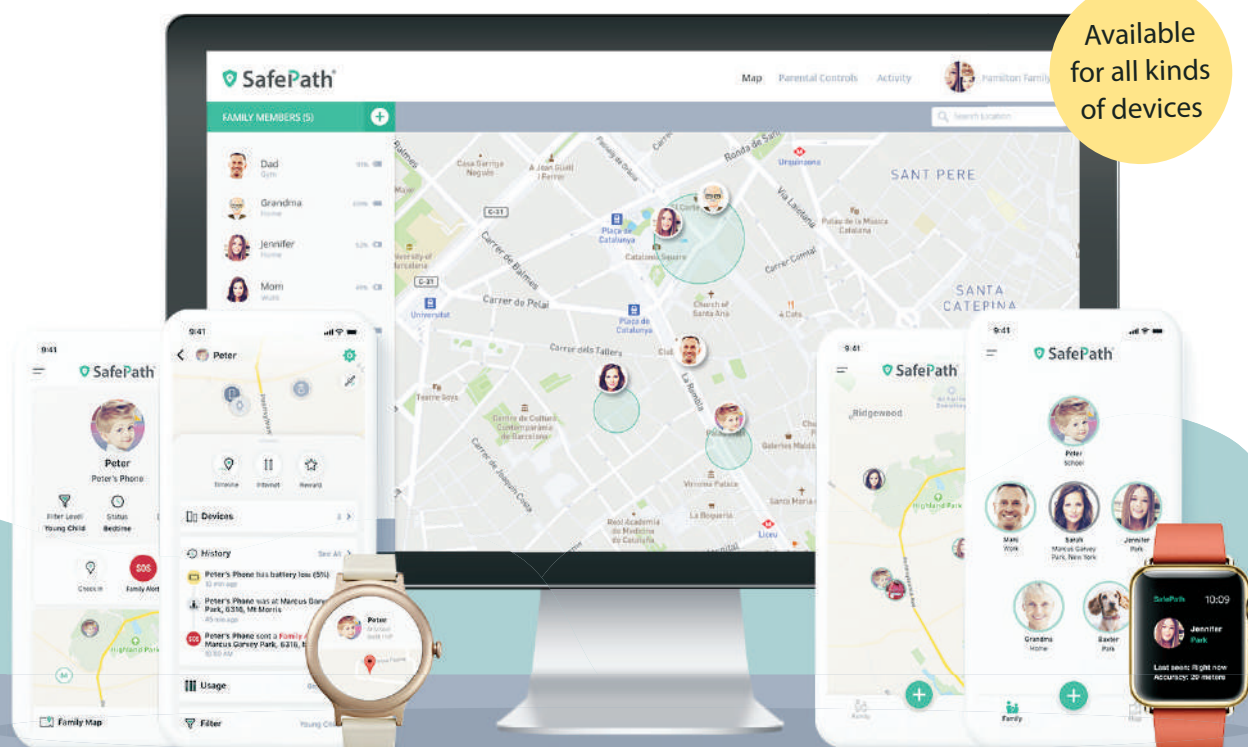

LOCATION SERVICES

Empower subscribers to **locate** and share their whereabouts with **family members.**

Safety Areas & Automatic Alerts

Create virtual fences around areas you designate and receive automatic notifications when a family member enters or leaves the area.

Real-Time Tracking

Locate family members in real time as they move to different locations.

Pick Me Up

Make it safe and easy for family members to reach out to each other for a ride request.

Activity History & Timeline

Safeguard family members by knowing where they have been and the path they took to get there.

SafePath®
FAMILY

OPTIMIZED PARENTAL COTROLS

Parents can control and manage online content across all connected devices by setting **screen time** limits and digital **content filters** based on an individual's profile.

▽ App & Web Management

Protect family members from inappropriate content by setting online content filters that match each family member's age and interests.

### ⬡ Time Limits

Proactively manage the time kids spend on their phone and restrict app-specific or total device usage.

☆ Rewards

Celebrate good behavior with digital rewards – gift kids more screen time or a later bedtime.

❙❙ Press Pause

Pause the internet to all devices (or just one) with the press of a button.

SmithMicro SOFTWARE

◉ SafePath® FAMILY
